McIlvain & Humphreys Meet Heavy Loss-Damage to Opera-House and Other Property

Owing to the splendid water system-a pressure of a 151 to the square inch-big fires in Maysville are few and far between, but the burning of Parker's Livery Stable, one of the largest and most complete in the city, and Me-Ilvain & Humphreys's Furniture Store this morning will be classed as such.

The fire started in the hay loft in the second covered was an incipient blaze.

From the time of the alarm until water was thrown at least a half hour had elapsed, and in the meantime the fire had gained such proportions as to threaten the Opera-house, First National Bank, Bulletin Office, Public Library, Murray & Thomas's Marble Works, Miller's Harness Shop, G. W. Chambers's Repair Shop, Pickrell & Creighbaum's tailoring establishment, Redmen's Hall and other buildings in the immediate vicinity.

Three of the fire companies responded in full force, and once at work did noble service, subduing and confining the flames within the scope of the livery stable and furniture store.

At one time the flames leaped high and illuminated the heavens, the heat so intense it hampered the work of the brave firemen, who, notwithstanding, stood nobly to their unselfish and heroic task.

This disastrous fire falls particularly hard on Mr. John T. Parker, who was just recovering from a similar misfortune in the same location eight property.

Sunday morning, January 30th, 1898, this up in a few hours \$50,000 worth of property, including the Opera-house.

The stable and contents were valued at \$25,-000, and with the exception of about forty head of horses, all of which were saved, the loss will reach at least two-thirds of the amount, with a shuffle. total insurance of \$6,000 on building and \$4,000

Murray & Thomas lose \$200; insured. How the fire started will probably never be known, although three men were sleeping in the

stable at the time.

Harris Cooper discovered the fire at 1:30. Mr. Parker, at the sight of his possessiors being consumed, became so excited and overcome that he had to be restrained by friends lowest possible price at Sallie Wood's Drugstore.

Notwithstanding precaution had been taken by the Opera-house management in laying hose throughout the building to fight the fire, the cornice work at the very highest point blazed out, and for ten or fifteen minutes men with bated breath stood and watched the firemen in will have a capital stock of \$20,000. their futile efforts to reach it. At last a stream from the Neptune shot up and reached the spot amid the huzzahs of the onlookers.

The fire was under control at 3:30, and the firemen quit work at 6:30.

The contents of the Public Library were carried out, but the damage from water and other causes will necessarily be considerable.

lines or fall. The object in first putting down the gutters, I take it, is to afford a "guide" for laying the brick; if the gutter is undulating, so will be the street when laid, and instead of an even surface there will be "hills and hollows."

This is not the sort of work provided by the specifications, and it is not the sort of work that should be paid for -or that will be paid for by some property owners.

There is incompetency somewhere.

If the Committee can't enforce the provisions of the specifications, a new Committee is needed; if the Engineer is incompetent, he should be removed; if the 'present Contractor will not conform to the specifications and to the orders of the Engineer, he should be ousted at once and the contract given to another.

It will hardly do to say that the defective parts of the work will be taken out and replaced; whenever an attempt is made to "patch up" a | three years ago."

job, it generally results in an irreparable "botch." Besides, it costs less to do work right in the first

And just here, I think the Committee erred in opposing Councilman Walther's motion to appoint one or two property-owners as members of the Street Paving Committee. It occurs to the average citizen that he would be only too glad to have some of the parties in interest share with him the responsibility of failure, if failure comes. Instead of opposing such action, the members of the Council Committee should have invited it.

The building of these brick streets is a different proposition altogether. Heretofore street improvements have been made at the expense of the city's taxpayers jointly. This time those in front of whose property the street is laid will be called on to pay the cost out of their own pockets, barring intersections and in front of alleys, and even for these they must stand their pro rata of the cost. This being the case, the people who are to do the paying propose to have a share in saying how the work shall be done.

It is time to call a halt!

The Board of Council meets next Monday night; and in the absence of action on its part THE LEDGER favors a concerted movement by those who are to pay for this work, stopping the whole business unless there are immediate steps for the proper fulfillment of the specifications by persons who are competent to do it

RUGGLES CAMPGROUNDS, July 30th, 1906. We are getting our share of rain. After a short period of sunshine about noon yesterday it began to rain again and it has literally come down in bucketsfull since. The people are anxous to come to camp meeting, for during that short period of sunshine quite a large crowd came so that when time for the afternoon service came the Tabernacle was well filled. Dr. Baker delivered a powerful and searching sermon to the young people at this service on the practical part of a young person's christian life. At its close about 150 young people came forward to the altar and pledged themselves to give up all and follow Christ. About that many more older Christians came forward in token of their desire to encourage and help them in the Christian race.

Dr. Royal preached to a large audience again in the evening, and in spite of the rain, which naturally caused some confusion, was given the best of attention throughout his excellent discourse. We regret that Dr. Royal cannot remain with us as he has endeared himself to all Christians by his convincing messages from God's word.

This morning Rev. H. W. Bunton will preach and Dr. Oliver of Covington will likely arrive and preach tonight.

There is so much to enjoy out here that the time passes all too quickly. Like almost all other marvelous inventions, the televue is extremely simple in principle.

The user sits down in front of the instrument, and a strong light is thrown on the face by some five or six electric globes.

Under the telephone mouthpiece is a large round disc of glass, somewhat thicker in the middle than on the edges. In the center of the glass there is a small hole, and through this the sitter is able to see the person to whom he is

The secret of the invention, Mr. Fowler says, lies in the perfect mechanical and chemical combinations. During the entire conversation the televue keeps up a constant buzz.

The inventor predicts that in a very short time one will be able to talk from New York to Chicago and see the person at the other end of

The possibilities are infinite, as the televue can be developed to include such work as exploring sunken wrecks and presenting views of articles from the home or office. For instance, the housewife can call up her

grocer and order her weekly supplies without the slightest fear of getting old goods. She can select a dress pattern from a depart-

ment store and never leave her apartment. Mr. Fowler says he worked twenty-six years before he completed the invention.

#### A MEASURE OF MERIT

Maysville Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Maysville, Is not the testimony of strangers, But the indorsement of Maysville people. That's the kind of proof given here-

The statement of a Maysville citizen.

Mrs. Lizzie Burns, living on the Blue Run Turnpike, West End, Maysville, Ky., says: "My opinion of Doan's Kidney Pills which I expressed through our newspapers in the spring of 1900 has not altered. I value this preparation more highly today than I did when I gave my first testimonial. Before I got Doan's Kid-ney Pills at J. James Wood & Son's Drugstore I was troubled with severe spells of backache and kidney complaint, which came on every three or six months, and there were times when I was confined to my bed and rendered almost helpless. The quick and decided benefit I re-ceived from Doan's Kidney Pills was wonderful. I have noticed slight returns of backache since,

ble. In every case I know among my friends when Doan's Kidney Pills have been used the results have always been satisfactory." Forsale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents
